The PayAsYouGo Ecosystem

WHY CHOOSE PAYGEE?

At ENGIE Energy Access we have 11 years worth of experience in managing pay-as-you-go (PAYGo) portfolios via Paygee. Currently over 65 satisfied business clients use the world's most powerful software tool for their operations around the globe, leveraging Paygee for their last mile distribution of PAYGo products for underserved markets over 36 countries of operations.

Our technology is integrated with a carefully selected variety of hardware from a whole range of solar home systems, agri-tech & irrigation solutions, household appliances and mini-grids. Over 1.6 million devices managed and sold via Paygee stand as proof of our strength and flexibility.

Track Payments

Accept Mobile Money payments and manage any outstanding payments.

Manage Inventory

Keep track of your stock across your stores, agents and customers.

Offline functionality

The Paygee sales app makes it easy for your agents to start selling, even without a data connection.

Sell More

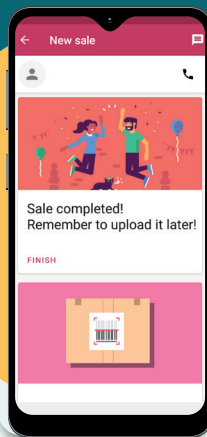

Upsell products and services across a customer's lifetime to maximise revenue.

CRM & Aftersales

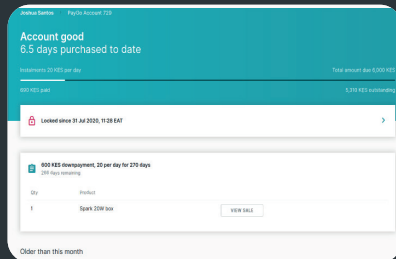

Tools allow your customer care team to offer targeted after sales support.

Task Management

Schedule and co-ordinate all agent tasks for customer care, tech support, loan management and repossessions.

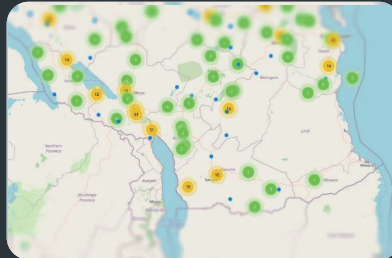

PAYGEE CRM

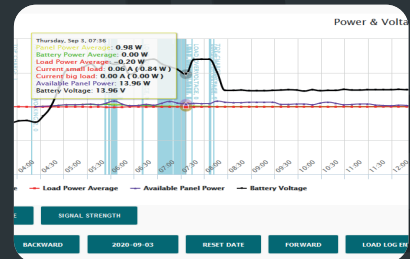

Full Control

Use Paygee to manage your pay-as-you-go distribution business from A-to-Z. Our powerful and flexible designed software ecosystem manages the portfolio of entire business operations from accounting, sales, logistics, CRM and much more.

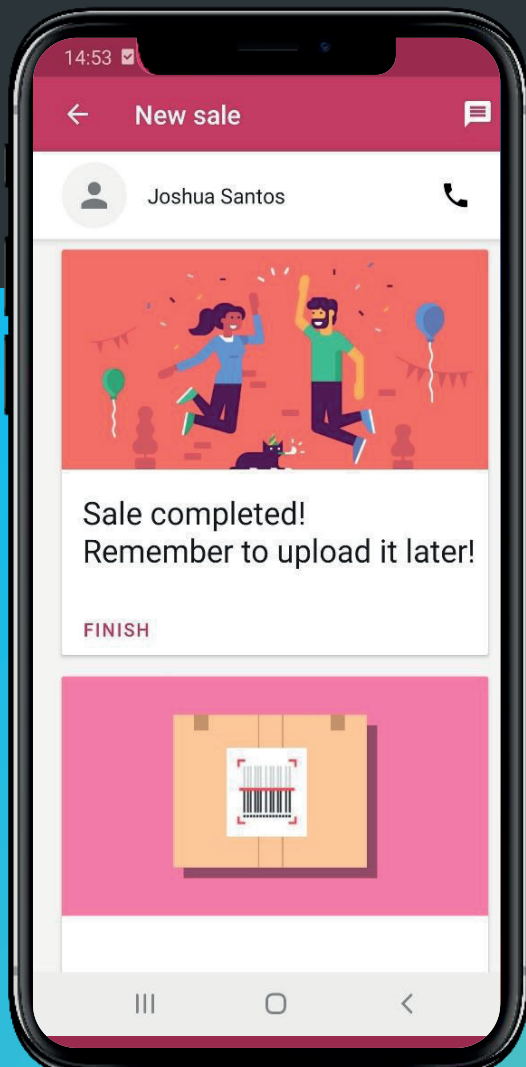

Insights

Have an overview and insights on all Solar Home System (SHS) devices or sales and cash collection at a glance. Take data driven actions to improve overall business performance.

Data Logs

Get device usage and sensor telemetry data from GSM enabled SHS devices for remote monitoring and maintenance. Set up action triggers to prevent incidents before they happen.

Sell anything with the Paygee Sales App

- ✔ Sell anything
- ✔ Works offline
- ✔ Paygee wallet

Paygee's mobile application allows agents to sell any product or service - anytime and everywhere. Our app supports inventory tracking and registering new customer, SHS activations, sales and payments even in remote locations.
